

General Practitioner (MCNZ) Registration Checklist

A practical, tickable checklist to work through alongside your Medical Council of New Zealand Registration Guide — so nothing gets missed on the way to registration.

Before you begin

Tick as you go

Tick each box on screen as you complete it. The items are grouped into stages, roughly in the order you'll tackle them — but you can work on several at once.

This checklist is a companion to the main guide, which explains the *why* behind each step. It complements, and does not replace, the official guidance of the Medical Council of New Zealand, who make all registration decisions.

One thing to know up front

For doctors the order is different: a consultant role and an approved supervisor come *first*, and your MCNZ application is built around them. Secure the role (Stage 02), start EPIC early (Stage 04), and the rest follows far more smoothly.

01 Before you start

Get oriented before you spend money or gather documents.

- ☐ **Use MCNZ's registration self-assessment tool**
An early read on which pathway you're likely eligible for
- ☐ **Confirm your vocational pathway**
VOC4 fast-track (approved list), VOC3 (assessed), or VOC2 if you hold FRNZCGP/FRACGP
- ☐ **Check your qualification against the VOC4 approved list**
On the Council's VOC4 page — determines fast-track eligibility
- ☐ **Confirm comparable-health-system experience**
24 months in 5 years, incl. 12 months in the last 18, in a comparable system
- ☐ **Note that fees are payable and reviewed periodically**
Separate EPIC and Council charges — confirm current figures before paying

02 Secure your role (this comes first!)

For doctors the job and supervisor precede the application.

- ☐ **Secure a consultant/specialist job offer**
A prerequisite for provisional vocational registration
- ☐ **Confirm an approved supervisor with the role**
Registered in the vocational scope of general practice, nominated by your employer
- ☐ **Agree to build the application with your employer**
The position-and-supervisor approval is part of the process
- ☐ **Complete the position & supervisor approval form**
Submitted to, and approved by, the Council

03 Create your application

Getting set up in the Council's portal.

- ☐ **Request a PIN and create a myMCNZ account**
Your online application portal
- ☐ **Identify additional specialty information needed**
MCNZ may request what RNZCGP needs to advise on your application
- ☐ **Download the CV template (where it applies)**
Use MCNZ's template for your pathway

04 EPIC / MyIntealth verification (start early!)

Primary-source verification — the slowest-moving step.

- ☐ **Open your EPIC case via the MyIntealth portal**
Begin as soon as your pathway and role are confirmed
- ☐ **Verify your primary medical qualification**
Confirmed directly with the issuing institution
- ☐ **Verify your specialist qualification(s)**
UK/Irish applicants often upload two documents as specialist qualifications
- ☐ **Ensure verification is underway before you submit**
MCNZ can't begin processing until it's in train

05 Identity & supporting documents

Confirming who you are and assembling the pack.

- ☐ **Certified identity documents**
Plus certified evidence of any name change
- ☐ **Up-to-date CV (dates, FTE, level of responsibility)**
Mapping clearly onto your consultant role
- ☐ **Certified translations of non-English documents**
Supplied with the certified original

06 References & good standing

Third-party items — start these early.

- ☐ **Three references on the RP6 form**
Senior medical practitioners who've worked with you, generally within 3 years
- ☐ **Referees returned and verifiable**
MCNZ verifies all references as part of the assessment
- ☐ **Certificate of Good Standing (COPS) direct from your regulator**
From the GMC / AHPRA etc., sent directly to MCNZ
- ☐ **COPS received within 3 months of your NZ start date**
Time it carefully; more than one may be needed if you have disclosures

07 English & cultural competence

Language evidence (if required) and the GP cultural-competence expectation.

- ☐ **Meet MCNZ's English-language policy**
Confirm the current accepted tests and scores on the Council's policy
- ☐ **Provide IELTS Academic (or accepted evidence)**
Where a test is required
- ☐ **Results valid at submission**
Time the test so results don't expire before you apply
- ☐ **Begin cultural-competency & indigenous-health training**
RNZCGP looks for NZ training, e.g. Foundation Course in Cultural Competency (Māori)

08 Submit, register & after

Putting it together and what follows.

- ☐ **Submit your application via myMCNZ**
Working with your employer
- ☐ **Assessment & college advice (RNZCGP for VOC3)**
Vocational applications commonly assessed within ~20 working days once complete
- ☐ **Receive your eligibility-for-registration letter**
Confirms you can be registered; sets up your registration meeting
- ☐ **Arrive in NZ & attend the registration meeting**
Within ~2 weeks of your start date — identity, formalities, practising certificate
- ☐ **Provisional vocational registration & supervision**
Work under supervision; 3-monthly reports to the Council
- ☐ **Progress to full vocational registration (COS5)**
Once Council requirements are met — permanent, independent specialist registration

HOW ETHICARE WILL SUPPORT YOU

You don't have to navigate this alone

If anything on this checklist raises a question, that's exactly what we're here for. We support and guide you through every stage — from first enquiry to starting work. The registration decision always rests with the Medical Council of New Zealand.
